QUOATATIONS FROM AMERICA.

EXPLANATION OF FIGURE CODE.

The translation of the first group of figures is obtained in the following manner:—The first four units are taken from Table I. and give the price at which Good Middling (1st figure), Middling (2nd figure), Low Middling (3rd figure), Good Ordinary (4th figure) may be sold, Cost, Freight, Insurance and 6 % loss in weight Liverpool classification, shipment by sail to Liverpool.

The fifth figure is taken from Table II. and gives the difference for shipment, by steam.

The second group, which consists of four figures, is read thus:—The first three units are taken from Table III. and give the difference to Havre (1st figure), Bremen (2nd figure), and Amsterdam (3rd figure).

The fourth figure is taken from Table IV. and gives the grades mostly on sale.

The fifth figure is taken from Table V. from market report.

When desirable to omit any quotation, a cipher will be inserted instead of the index figure.

EXAMPLE.

51628 17322

5	Good Middling	$6\frac{1}{2}$
1	Middling	$6\frac{1}{4}$
6	Low Middling	6

We leave the actual number of *Pence* and of *Tens of Francs* to be understood.

N.B.—When only one Geographical symbol is sent these three Tables will always be used. The first unit to be taken from Table A, the second from Table B, the third from C, *i.e.*

CLAPHAM—125. 1. Have bought to cover sales, 100 bales basis middling.
2. This and next month's delivery.
5. @ $\frac{1}{8} = 6\frac{1}{8}$.

*When Havre transactions are advised the price will be basis Low Middling, instead of basis middling.

Should more than one geographical symbol be used with table A. B. C., a word from our large code must come between.
